INDEX

Volume XXIII, 1956

Subjects and Titles

Addresses: Convocation, 249, 292, 300, 348
A Congressman Speaks: 179
American Association for the Advancement of Science: 186
Book Review: 354
Calendar of Meetings: 25, 160, 245, 309
Carbohydrates of Human Saliva: 191
Committees: Standing, 27, 220, 265, 355; Special, 28
Dedication of University of Texas Dental Branch: 197
Demonstrations: 263
Dentist and Community Interest: 163
Dentistry's Human Relations Today—1956: 324
Dentistry's Public Responsibilities: 348
Development of Dentistry: 256
Editor's Commentary: 223
Effect of Salivary Gland Extirpation on Experimental Dental Caries in the Syrian Hamster: 186
Electrophoretic and Ultracentrifugal Studies of Human Saliva: 192
Enzymic Change in Parotid Saliva as Related to Psychopathology: 190
Ethics and Etiquette: 327
Ethics and Human Relations: 300
Examinations: 239
Gies, William John: 272
  Contributor to Dental Research, 289
  Dental Journalist, 286
  Man of Influence, 284
  The Man, 281
Glycolysis Inhibitors Among Compounds Containing Aldehydes, Ketones and Organic Acids: 195
Horizons of Clinical Teaching: 235
Human and Public Relations: 317
Human Relations—One More River to Cross: 312
In the Beginning—: 224
Index to Volume XXIII: 357
Journalism: Committee Report, 13
Manners and Molars: 258
Metabolic Response of Salivary Glands in Injection of Thyroxine and Related Compounds: 193
Minutes: Meeting of Board of Regents, February 5, 1956: 162
Necrology Committee Report: 205
Observations on the Effect of pH on Teeth: 189
Observations on the Relationship Between the Salivary Glands and the Endocrine System: 193
Officers and Regents: 2, 158, 222, 270
Origin of the Total Mixed Saliva of Man: 189
Panel Discussion, 1956 Convocation: 312
Parotid Salivary Components Under Various Conditions of Stimulation: 188
Past Presidents Honored: 308
Preliminary Observations on the Solubility of Human Enamel: 194
President's Address: 292
Professional Competence and Attitudes: 3
Publications and Clinics: 227
Register of Membership: 29
Research in a Dental School: 230
Role of the Dentist in Public Health: 172
Sections, American College of Dentists: 155, 159, 266, 356
